### Internet

Bowl Technique - I have recommended Richard Findley before and I really rate his technique based videos. The following is the first part of a four part series. [Turn better bowls - Episode 1](#)

Looking for a lathe? - Vic spotted this sturdy looking lathe at a good price and says: unlike other small entry level lathes this has a full size M33 x 3.5mm spindle so if you do grow out of it you can transfer any chucks etc to a new larger model. Nearly all of which also have M33 x 3.5mm spindles.

### **Yandles – Masters of the lathe**

The last two of these have been very good – the line up this time is very strong.
